Multiplication

Worksheet 1

Adding equal groups

1 Fill in the correct answers in the boxes.

(a)

$2 + 2 = \boxed{4}$

$2 \text{ twos} = \boxed{4}$

(b)

$3 + 3 = \boxed{6}$

$2 \text{ threes} = \boxed{6}$

(c)

$4 + 4 = \boxed{8}$

$2 \text{ fours} = \boxed{8}$

$$3 + 3 + \boxed{3} + \boxed{3} = \boxed{12}$$

$$\boxed{4} \text{ threes} = \boxed{12}$$

$$3 + \boxed{3} + \boxed{3} + \boxed{3} + \boxed{3} + \boxed{3} = \boxed{18}$$

$$\boxed{6} \text{ threes} = \boxed{18}$$

2

There are groups of cups.

There are cups in each group.

$$\boxed{4} + \boxed{4} + \boxed{4} + \boxed{4} = \boxed{16}$$

$$4 \text{ fours} = \boxed{16}$$

There are cups altogether.

★ Fill in the correct answers in the boxes.

(a)

$$4 + 4 + 4 + 4 + 4 = 20$$

$$5 \text{ fours} = 20$$

(b)

$$7 + 7 + 7 + 7 + 7 = 35$$

$$5 \text{ sevens} = 35$$

(c)

$$9 + 9 + 9 = 27$$

$$3 \text{ nines} = 27$$

★ 4 Fill in the correct answers in the boxes.

There are groups of handkerchiefs.

There are handkerchiefs in each group.

Write the addition sentence:

$$6 + 6 + 6 + 6 + 6 = 30$$

$$\text{5 sixes} = 30$$

There are handkerchiefs altogether.
