So, it has never been updated to the current music editing programs. It is only used to create drum beats and this program will not allow you to edit them into music tracks like the free version of this will. I can't believe they spent so much money for this simple beat making program. Just use the free one. Easy and fun 5 By NED This is a great drum machine with a really easy way of creating beats. It has many different sounds and a very nice interface, too. It works like a dream. Too easy, no creativity 1 By Funny. I find this drum machine very easy to use. I like the idea of the beats already made. The sounds aren't great, though. If you want real beats, get VstDrum instead. I wish I didn't like it so much and just enjoyed the idea. Total Piece of Garbage 1 By Deceptonsimons First of all, I didn't find this app to be fun to use. At all. It felt awkward and the controls were not intuitive at all. I didn't use the extra package because I didn't understand how that would help me with anything. In short, it
